CAREER OBJECTIVE

Highly skilled full stack PHP Web Developer with over a year of combined work experience in web development, including 10 months of full-time work and 4 months of on-the-job training in PHP. Possesses a Bachelor of Science (B.S.) in Information Technology and a demonstrated ability to write clean, efficient code with detailed comments. Proficient in web design, programming, and creating custom icons in Illustrator, as well as having advanced skills in Photoshop and graphic design. Proven adaptability and team-player mentality to help your company achieve its goals.

Seeking a challenging role in web development where I can apply my expertise and continue to grow as a professional.

EXPERIENCE

PHP WEB DEVELOPMENT

St. Michael's College, Iligan City/Feb
2022-May 2022

- I had on-the-job training in St. Michael's College on developing an Inventory Monitoring System for the school's computer labs.
- I've worked part time on developing a Covid 19 Quarantine Monitoring System.
- I've worked on developing an Online Parking Reservation System.

Creative Digital Builders
Iligan City July 2022 - March 2023

- Developed a custom CRM system for an insurance company, responsible for both front-end and back-end development using PHP. Designed and created custom icons using Illustrator for use in the system.

SKILLS

As a highly skilled full-stack PHP Web Developer, I possess a wide range of technical proficiencies that include programming languages such as PHP, HTML5, CSS3, and Javascript. I also have expertise in database management using MySQL. In addition, I have a solid background in graphic design and am proficient in Photoshop and Illustrator.
